

Homework

Year 5

Thursday 6th March 2025

Dear Parents,

Homework this week has been set by Miss Entwisle and is related to British Science Week, which is next week.

Reading

Please remember to read with your child **daily** and support them with understanding through comprehension of the text and not just decoding. Please sign and date the reading record each time you hear them read. If you have any comments you wish to write about your child's reading, please do so.

Subject of the Week: In preparation for British Science Week, the children are being asked to participate in the Trust competition based on the theme 'Change and Adapt'. Please see the Trust poster for more details. This will give suggestions on what you could add to your poster. Please bring these in on **Tuesday 11th March** for them to be judged by the Trust.

Additionally, if your child is enthusiastic about conducting their own investigations at home, we encourage them to do so. They will be invited to share their findings at the Science Fair on Monday, where they can showcase their work and engage in interactive experiments with their peers. Please send loads of photographs to your class teacher via Class Dojo so that we can add them to our Class News. There are some investigation ideas in the British Science Week pack on the Homework page of the website.

On Monday 17th March, we will be holding a Science Fair after school.

This will be our final celebration for British Science Week. There will be work on display from all the classes as well as some investigations for the children to showcase what they have learned and to continue developing the children's curiosity and learning from other year groups.

Thank you for your continued support.
Mrs Skelton
